

Email sent to all staff 19/01/22 following a campaign in the summer term.

Hi all. We are the plastic clever RRS reps in Y6...

6SW: Recycling ink pens,

6HN: plastic waste to make eco bricks

6RJ: replacing plastic disposable cups with new reusable/washable ones for each classroom,

6SP: recycling crisp wrappers

We will visit your classrooms every half term (or more often if required) to collect any plastic wrappers, pens and waste which you would like recycling. We will also bring you new plastic cups for you to use regularly and washing-up liquid so that you can keep these as hygienic as possible. Please encourage your classes to bring their water bottles each day, however if they forget we'd prefer that they use the washable cups rather than disposable ones.

Can each class please prepare:

1. a clearly labelled bag for collecting crisp wrappers,
2. a clearly labelled bag for collecting plastic waste for the eco bricks
- and 3. a clearly labelled tub for any ink pens that have run out.

Please encourage the children to only recycle the waste from school, so they should not bring rubbish from home.

Recycling bags will be provided in the hall also.

If you have any questions please feel free to ask us.

Thanks for thinking of our environment, from Mrs Watkinson and the Y6 RRS Reps
