

BE PLASTIC CLEVER

A PLASTIC CLEVER BUSINESS WOULD...

1 DISPLAY A 'PLASTIC CLEVER EMPLOYEE' POSTER

By displaying the 'Plastic Clever Employee' poster you are acting as a responsible employer and positive role model for attitude and behaviour change with regards to single-use plastic; the importance of this cannot be underestimated.

2 DISCOURAGE BOTTLED WATER

Discourage employees from buying single-use bottled water. Instead, encourage them to refill water from the taps.

Try to provide enough glasses. If you can, have a refillable jug that staff can refill with tap water and chill in the fridge.

3 DISCOURAGE SINGLE-USE COFFEE CUPS

Encourage staff to use refillable coffee cups at work and when they go off the premises at lunch, or on their way to and from work.

Make sure you provide a selection of cups for staff to use at work or consider providing your own branded reusable cups. After all your employees are your biggest advocates!

4 AVOID THE BIG 4 POLLUTERS AND PLASTIC CUTLERY

If you have a meeting, lunch or event, avoid providing any throw-away single-use plastic items. Keep the BIG 4 polluters and plastic cutlery off your premises!

Make sure you provide enough reusable cutlery for employees to use throughout the day.
