

Plastic Pollution

Causes of plastic pollution

Many people are careless on how they dispose of plastic and leave it on beach's and near or in rivers

There are many common plastics that end up in the sea like

straws

single-use bags

bottles

and many more

What effect does plastic pollution have on animals?

Sea turtles, whales, dolphins, and coral reefs can be trapped in plastic
Seals eat plastic bags thinking they are jelly fish
Birds eat plastic thinking it's insects
Plastic is toxic and can kill wildlife or make them more susceptible to disease.

Plastic Clever Schools

Plastic Clever Schools Award is for schools which are making an effort to reduce the amount of plastic they are using.

They are 3 different levels, we are trying to get Level 1

To do this we need to

- Display - front hall
- Assembly
- Litter picking

What can we do to help?

- use reusable water bottles
- use reusable shopping bags
- stop using plastic straws and bags we should use paper straws
- use more paper material like paper and pencils
- recycle materials when we can
