

## Year 4 Agents of Change Eco litter pick

This week, Year 4 carried out a litter pick in our school grounds as part of our work to support ***Kids Against Plastic***. We logged not only all the different plastics found but all the other litter we found too. Even though we thought there wouldn't be that much we actually found **588 different items of litter** ! This just goes to show how important it is that we do all work together to make sure our community looks the best it can whilst also doing our bit to prevent plastics causing damage to our living things, their habitats and the world as a whole.
