

# Plastic Clever School action plan

## What problem plastic(s) are you going to tackle?

E.g. Single use bottles and cups

plastic single use water bottles

plastic on our local beaches

## What can you do to reduce it?

E.g. Get everyone to use a reusable bottle instead

we would like to purchase reusable water bottles for learners

we would like to encourage termly beach cleans in our outdoor learning sessions to both remove and identify plastics on our beaches.

## What help will you need?

E.g. Help to spread the message to pupils, staff and parents. Also, we'll need to speak to Mr. X to ask to stop ordering the single use cups.

we will talk to the principle and share our idea, we will also speak to the kitchen team to ask to stop buying them. We will then need to decide which bottles to buy i.e. metal bottles and fill in a purchase form to buy them.

we will talk with the outdoor learning team to schedule classes to go for beach cleans and run a competition to encourage learners to participate, we have ordered some beach cleaning equipment

## How will you know you've been successful?

Everyone has a reusable bottle and the school has stopped ordering the cups.

when we no longer buy plastic single use water bottles.

all learners from our school will have taken part in beach cleaning activities, we will produce art with the plastics that we remove. we will also identify the plastic we find and continue thinking about how we can use the 6 Rs.
